The Ph. D. of Commercial Real Estate

ABOUT CCIM

Aloha,

The Hawaii CCIM Chapter invites you to be part of our exclusive Sponsorship Program. Our Program is limited to only a few partners each year, so your message is not diluted in a sea of competitors.

The Hawaii CCIM Chapter was founded in 1975 as an organization dedicated to providing quality education courses designed to enhance professionalism throughout the Hawaii commercial real estate community. The prestigious CCIM designation is awarded only to the person who has completed 240 hours of graduate level curriculum, fulfilled a production resume grading procedure and passes a rigorous comprehensive examination. Through Sponsorship, we have been able to offer these high level courses here in the islands and saving students the costly travel expenses previously required to attain this designation.

A CCIM is a recognized professional in commercial real estate brokerage, leasing, asset management, valuation and investment analysis. As an experienced expert, a CCIM is an invaluable resource to the commercial real estate owner, investor, user and lender. Professional experience requirements ensure that a CCIM is skilled not only in theory, but also in practice.

The Sponsorship Program allows our Partners to be recognized for their support to the industry by allowing CCIM to continue to offer first class educational programs and important Continuing Education courses. It gives you maximum exposure and visibility for your sponsorship dollar.

Thank you for your time in reviewing the brochure and considering the Hawaii CCIM in your promotional budget!

Sincerely,

Brandon Bera, CCIM
2018 Hawaii Chapter President

A Certified Commercial Investment Member (CCIM) is a recognized expert in the disciplines of commercial and investment real estate. A CCIM is an invaluable resource to the commercial real estate owner, investor, and user, and is among an elite corps of 7,500 professionals across North America who hold the CCIM designation -- the "Ph.D. of commercial real estate."

Recognized for its preeminence within the industry, the CCIM curriculum represents the core knowledge expected of commercial investment practitioners, regardless of the diversity of specializations within the industry. The CCIM curriculum consists of four core courses that incorporate the essential CCIM skill sets: financial analysis, market analysis, user decision analysis, and investment analysis for commercial investment real estate. Additionally Ethics and Negotiations classes are required. Following the course work, candidates must submit a resume of closed transactions and/or consultations showing a depth of experience in the commercial investment field. After fulfilling these requirements, candidates must successfully complete a comprehensive examination to earn the CCIM designation.

Only 6 percent of the estimated 125,000 commercial real estate practitioners nationwide hold the CCIM designation, which reflects not only the caliber of the program, but also why it is one of the most coveted and respected designations in the industry. The CCIM membership network mirrors the increasingly changing nature of the industry and includes brokers, leasing professionals, investment counselors, asset managers, appraisers, corporate real estate executives, property managers, developers, institutional investors, commercial lenders, attorneys, bankers and other allied professionals. Through this business network and through enhanced communication with the CCIM electronic network, CCIMs successfully complete approximately 156,000 transactions annually, representing more than \$400 billion.

Certified Commercial Investment Members are in more marketplaces in North America -- 12 CCIM regions representing 1,000 cities -- than all major real estate companies combined. Regions and chapters provide designees and candidates the opportunities to promote business and educational goals through local and regional forums and meetings.
